

ÞRIYH

## Gríma Variable

A variable font for the younger fuþark runes

Gríma can currently vary along four axes:

**Weight**

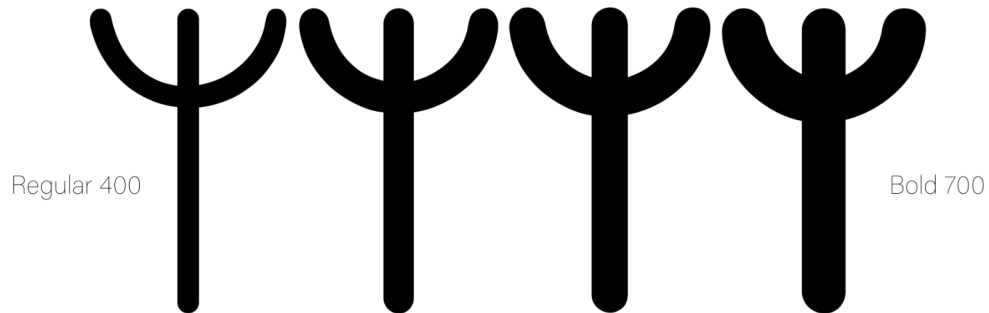

**Softness**

**Angularity**

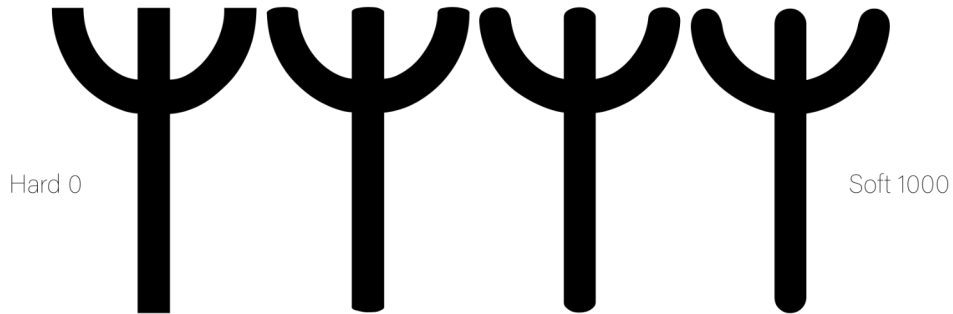

**Height**

The axes developed were chosen with historical accuracy in mind, avoiding the introduction of any traits that would have proven unlikely to appear in period runic inscriptions.

# Weight

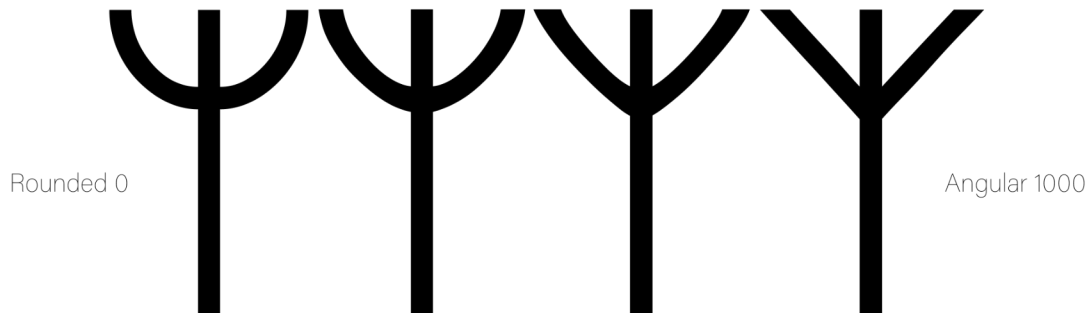

# Softness

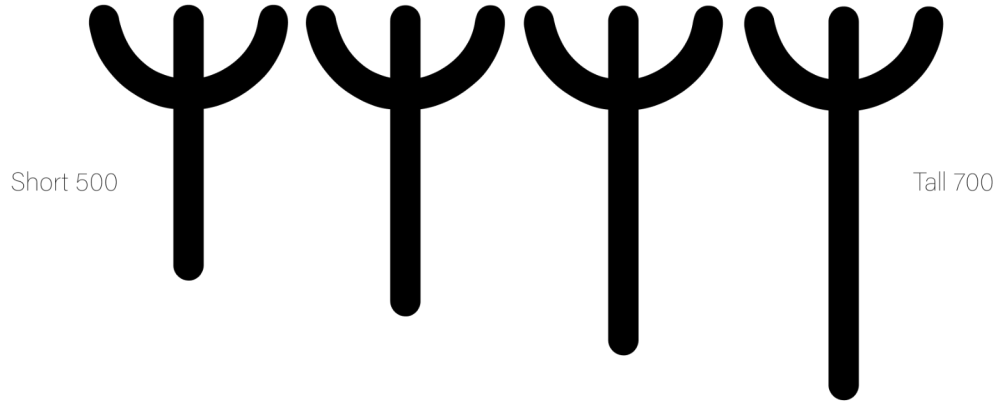

# Angularity

# Height

# Standard Runeset
